**We hold pricing information on our records for each of our practitioners. If you would like to change the fee you charge your patients for the Somnowell device in line with our increase, please let us know so that we can update our records. Please email us with pricing updates: [info@somnowell.com](mailto:info@somnowell.com)**

Each Somnowell device is supplied with a plastic storage case.

If a device requires additional work, or extra items such as false teeth or occlusal buccal blocks are requested, additional charges will be incurred. Any additional charges will be confirmed beforehand.

Prices may be changed without notice.

**Patient Pricing**

As a guide we estimate 1 hour 30 minutes in total for clinical time for the Somnowell MAA, this includes the assessment, record taking, fitting, and a follow up if required. For the Somnowell Retainers we estimate 30 minutes in total for clinical time, this includes the record taking and fitting.

Prices to the patient set by Somnowell Practitioners vary according to local circumstances. As a guide only, in the UK the average price is £1,600 and the typical price range is £1,600 to £1,800.

**Production Time**

The standard turnaround time is 15 working days in the lab (from the date of arrival of complete accepted records and payment).

Please allow for extra time for international shipping. Additional shipping charges apply for Ireland and outside UK.

We also offer a 7 working day express production service, detailed above.

## Repairs

In the event of repairs that fall outside our guarantee, costs will be calculated on a case by case basis. The original cast mounted models must be returned.

## Remakes

Occasionally the chrome cobalt Somnowell appliances do not fit. This may affect one or both frameworks. This could be for various reasons, i.e. impression distortion. The very nature of cast chrome cobalt as with any cast metal, means that there is little scope for error and the material is unforgiving.

If the appliance fits the models supplied but is an unsatisfactory clinical fit, then:

- Do not attempt to adjust the chrome to fit.
- Do not adjust the clasps or rests.
- Return the Somnowell on the original stone models with the mounting plates where appropriate.
- Provide well supported new impressions (please take special care to ensure that the impression material has not pulled away from the impression tray, and that the impression material has fully set in the mouth before removed).

The returned appliance must be received at the address shown on our Laboratory Order Form.

Appliances must be fitted within 28 days of delivery to your address.

We reserve the right to request fresh records and will judge whether the appliances have been adjusted or altered in any way. We reserve the right to request fresh records and will judge whether the appliances have been adjusted or altered in any way.

## Payments

All payments are to be made before the Lab can commence with the order.
